

**By joining Creative Homecare, you'll not only have a rewarding role, you will be supporting Strathcarron Hospice:**

Creative Homecare is a new and innovative care provider throughout the Forth Valley area. Our team of Homecare Support Workers assist customers to improve their quality of life and help them live independently in their own homes, by providing social support and personal care.

As a social enterprise, every penny made is reinvested into Strathcarron Hospice and the end of life care services they provide to individuals and their families across our communities.

We are not an end of life care provider like Strathcarron Hospice, however the excellence of care provided by the Hospice is mirrored in our Creative Homecare services. Our bespoke support to customers is tailored to their individual needs of care and our staff will be fully trained and be supported by our management team.
